Presents
Chess Classes
at
Dum dum

We are providing coaching to young students. There are several chess coaches attached with the academy looking after the development of the games of chess of the students. Both theoretical and practical classes are taken by the coaches. Besides, several practical tournaments are organized by the academy for the students so that they do not face much problems in taking part in competitive chess tournaments. Coaches fix the class of any particular student as per students' understanding the game of chess. Importance will be given to gain international ratings by the students of the academy. Chess develops mental analysis power. It is best to start at the age of 5 or latest by 7. However, anyone within 16 years of age with good background of chess and is willing to make a further development with the help of any good coach or chess-masters, may also approach the academy. Several good coaches, Fide Master, International Master and Grandmaster of chess are attached to the academy to look after the same. Our all faculties are International Fide(World Chess Federation) Rated Chess Player. Our academy is setup with an aim to provide a platform for the upcoming players to nurture their talents and make a mark in national and international chess.
